BIG CHAMPIONSHIP POWERBOAT RACES

BIG GOLD CUP EVENT TO BE HELD ON THE DETROIT RIVER SOON—MUCH INTEREST.

DETROIT, Mich., Aug. 28.—With the gold challenge cup, emblematic of the world's powerboat championship, as the prize, four and possibly five of the speediest watercraft in America will compete here in the feature event of the annual regatta of the American Powerboat Association, August 29 and 30, and Sept. 1. The regatta will be held on the Detroit river and will include besides the gold cup event, two cruiser races and a "chance" race.

A new record for hydroaeroplanes is expected to be established in this year's gold cup event. As an added incentive to speed, the association has sanctioned the awarding of a cup to be known as the Aladdin trophy, to the speedboat making the best time for a heat. The best time a year ago was slightly in excess of 53 miles an hour.

As in previous years, the gold cup event will be run in three 30-mile heats and the winner will be determined under the point system of scoring, which credits each contender with a point for finishing and a point for each boat defeated. Under this system of scoring it is possible for a craft to lose a heat, but pile up enough points to outdistance its nearest competitor, and win the cup.

A departure in the gold cup races this year will be the running of the race over a 2 1/2 miles course instead of the five-mile circuit. While this will make it necessary for the hydroaeroplanes to go twelve laps to the heat each day, they will have the advantage of easier turns on the local course. The shorter course also will keep the contestants in constant view of the spectators.

Detroit will have three contenders in the hydroplane race, Miss Detroit III, which won last year's event; Miss Detroit II, winner of the cup in 1917, and an unnamed craft. The fourth entry is the Arab IV, of the Buffalo Launch Club. Miss Minneapolis, of the Minneapolis Powerboat Association, winner in 1916, is a doubtful starter.

The program has been so arranged that there will be three races each day excepting Sunday. The day's card will begin with the cabin cruiser race, to be run in three 10-mile heats. This event will be started at 1:30 p. m., to be followed by the express cruiser race for the Detroit News Trophy, set for 2:30 p. m. The express cruiser event is also a 30-mile affair, to be run in three ten-mile heats. The hydroplane race is scheduled to start at 3:30 o'clock each afternoon.

THE PRESIDENT STARTS SPEECH TOUR WEDNESDAY

By the Associated Press

WASHINGTON, Aug. 28.—President Wilson will leave Washington next Wednesday on his proposed speech making tour in the interest of the league of nations and the peace treaty. He will deliver his first address at Columbus, Ohio, next Thursday, probably in the evening. Cincinnati is not included in the president's itinerary, but Secretary Tumulty announced that the president would speak at Indianapolis.

Accompanying the president on the tour will be Mrs. Wilson, Secretary Tumulty, Admiral Grayson, the president's personal physician, and a score of secretaries and stenographers.

WASHINGTON, Aug. 28.—In California, the home state of United States Senator Hiram Johnson, one of the leading republican opponents to the peace treaty, the president will make three speeches. He will make one at Los Angeles, one at San Francisco and one at San Diego. His only address in the state of Oregon will be made at Portland, but he will speak at Spokane and Seattle, Washington.

BILL TO MAKE PERSHING A PERMANENT GENERAL

WASHINGTON, Aug. 28.—In recognition of the services of General John J. Pershing in the great world war, the house of representatives today passed a bill authorizing the president to confer on him the permanent rank of general. The measure now goes to the senate for consideration.

AFRICAN GENERAL DIES SUDDENLY

GENERAL BOTHA, FAMED BOTH IN PEACE AND WAR, DIES SUDDENLY THIS MORNING.

By the Associated Press

PRETORIA, Union of South Africa, Aug. 28.—General Botha, premier and minister of agriculture of the Union of South Africa, died suddenly this morning, following an attack of influenza.

Gen. Louis Botha was born at Greytown, province of Natal, in 1863. At the beginning of the Boer war in 1899 he was Velt-Colonel for that district. During that period he soon rose to several commands, and following the death of Joubert he was made Commander-in-Chief of the Transvaal forces.

After the fall of Pretoria, Gen. Botha reorganized the Boers for a prolonged guerilla warfare and offered strong resistance to the British up until 1901.

At the outbreak of the world war in 1914, Gen. Botha took command of the union forces in southwest Africa, achieving wonderful success against the Germans.

The program there consisted of three tableaux of patriotism to America. After the tableaux were shown the old fiddlers contest took place which was followed by an old time dance by the vets and their ladies. This was witnessed by thousands of people who crowded round to see how the young people entertained themselves in the old days in Dixie. Bob Roland did the calling for the dancers and for a while the spectators forgot they were living in another land in which there was much happiness. The evening's entertainment closed with a dance in the Elks hall given in honor of the visiting Sponsors, Chaperones, and Maids of Honor. Probably the largest number of people that ever gathered on Main Street was there last night, some placing the number as high as 8,000.

The reunion came to a close this morning with the great parade thru the business section of the city. At the head of the parade was General Coleman of the Oklahoma Division, U. C. V. Riding at his side was Captain Mrs. Blanche Leach of the U. D. C., who came all the way from Sedalia, Mo., to attend the reunion, and who has won the hearts of all with whom she has associated in Ada by her gentleness and beauty. Mrs. Leach wore a Confederate Veteran's uniform in the parade. These were followed by a company of cavalrymen, after which dozens of automobiles graciously furnished by the citizens of Ada, in which were seated the hundreds of loved old soldiers and their many friends.

The citizens of Ada have left nothing undone that would add to the comfort and pleasure of the soldiers during their stay in the city and the visitors say they never expect to have such a grand time again.

A statement issued Elihu Root, Jr., says that Mr. Carnegie's public bequests during his lifetime amounted to approximately three hundred and fifty millions of dollars.

The fourth article of the ironmaster's will contains a series of legacies to charitable institutions, while the fifth article contains many bequests to relatives and close personal friends.

A legacy of ten thousand dollars is made to former President Taft, and a bequest of five thousand each to Mrs. Grover Cleveland and Mrs. Theodore Roosevelt, widows respectively of the ex-presidents named.

A bequest of ten thousand dollars is also made to Premier Lloyd George, of England.

Notice Eastern Star.
Regular meeting of the Eastern Star tonight at 8:30. Business of the brotherhoods now on strike on the Pacific coast return to work by Saturday morning the brotherhoods will turn their support to the Federal administration in its efforts to operate the government controlled railroads, it was announced here today.

NEW HUNGARIAN CABINET HAS JUST BEEN FORMED

By the Associated Press

PARIS, Aug. 28.—Stephen Friederich, Hungarian premier under Archduke Joseph, has formed a new cabinet for Hungary in which, besides premier, he assumes the post of minister of the interior, according to a Havas dispatch from Budapest yesterday.

SKIRTS FULLER ACROSS HIPS

**Feature That Is Now Insisted On
by Leading Parisian
Dressmakers.**

SOME GIVE PANNIER EFFECT

**Startling Novelties. It Is Sure, Will
Figure in the Gowns for Autumn,
but Long-Waisted Bodice
Will Be Retained.**

The most striking feature of the autumn suits and gowns is the increasing fullness at the top of the skirts. The ways in which the great French dressmakers achieve this fullness are interesting. One point on which most of them agree is that the fullness must be massed across the hips, leaving both front and back perfectly flat.

Bulloz, however, has departed from this by introducing fullness across the front of his new skirts, thereby differing from the other designers. He makes one skirt with a full front panel gathered across the top. A little above the knee this panel has its fullness joined to a shaped flounce cut so that the greatest fullness of the flounce is at the edge where it joins the panel.

An instance in which Bulloz, like the other designers, placed the fullness at the sides appears in a skirt which has winglike pockets to give the effect of panniers. This is decidedly new and unusual on a suit skirt. The jacket which accompanies it flares from the waist, giving such fullness about the hips that it approaches the point of clumsiness. But although both skirt and coat are so very full at the hips the skirt still remains narrow at the hem.

Mme. Jenny does something novel in the way of achieving hip fullness by making a skirt of very slim outline and applying to it rolled plait which stand out over the hips. To make them even more pronounced she pads these rolls, which swing loose from the belt and disappear gradually into the narrowing fullness of the skirt lower down.

The chemise dress, which has held the center of the fashion stage for so long, was originally launched by Jenny. She still makes chemise dresses, which have been her favorites for the last three years, but she does something which fits them to hold their own among the wider hip models. Now Jenny's chemise dresses have wide panels hung at the sides and turned up in a way that gives the effect of a bunching hip basque. She

ing double frills of silver lace down the sides of the skirt, bordering a tabler panel; thus creating an entirely new silhouette. The satin bodice is snugly molded to the figure and a sash of the satin placed about the waist disappears beneath the panel at the front.

LATEST HIP FLARE.

The fluted or plaited tunic is another method of producing the fashionable hip flare now so characteristic of the newest frocks. Taffeta is frequently used for models of this sort.

The long-waisted bodice appears in almost all of these models. A black taffeta day gown featuring such a bodice and the fluted tunic is sketched today. The half low neck is round

and the bodice is fitted to the figure.

Six thousand people heard the old fiddlers' contest on Main Street last night. That is six thousand were on the block between Broadway and Remmie and as many of these heard the contest as could get in hearing distance.

There were three entries in the contest, all veterans of the war between the states, the youngest of the three being seventy-five years of age. The contestants were Captain Henry C. Gilliland of Altus, aged 81; Jim Tidwell of Purcell, aged 77; and Major Hackett of McAlester, aged 75. The judges of the contest

BROWN VELVET HAT.
A brown velvet hat flecked with small loops of henna chenille.

In outline and embroidered with claret colored bugle beads. The sash, which is really a continuation of the long bodice, has its ends fringed with deep red bugles.

Evening dresses still have very little in the way of bodices. Black satin skirts topped only by bright colored sashes produce some of the new dance frocks. From the house of Brandy in Paris comes such a dance frock. It is simply a black satin skirt attached to a sash. The long, slender train is made of ribbon. A vivid bit of color is introduced by having the sash corsage and train of orchidee pink satin ribbon. The ribbon used for the train is very much narrower than that which forms the sash bodice. The shoulder straps are of jet beads. Slippers of orchidee satin with stockings to match are worn with this frock.

Autumn hats are neither large nor small but of medium size. The Chinese note is conspicuous in them, bright Chinese silk embroideries being used to form round crowns which are completed by small uprolling brims of fur.

HINT FROM RUSSIA.

It is some time since Russia has been looked to as a source of fashion, but that designers are turning their thoughts toward that country is evinced by a high draped Russian turban formed of gray felt and trimmed at the front with full sprays of fancy gray feathers.

Still another hat showing Russian influence has a small crown with an upturned brim curved high in front. Softly draped satin forms both the crown and brim which are embroidered in heavy threads of blue silk.

To correspond with the flaring hip frills of frocks, many of which have wider edges, are bell shaped hats having as their trimming wired ruffles of taffeta which cross the top of the crown.

FOR THE MAID AT SCHOOL

Coming Season's Styles Sufficiently Advanced to Allow of a Judicious Selection Now.

Preparation of the wardrobe of the girl who goes away to school should be begun early. Fortunately fall styles have already been sufficiently settled so that making up simple dresses, blouses, etc., for school wear may be done along next season style specifications.

Smocks now being brought out for fall emphasize the strong hold this garment has acquired. The Cossack smock is an interesting model. This is cut on straight lines and is somewhat longer than the conventional smock. The jersey weaves either in silk or wool (the silk is more frequently employed than pure silk) are popular fabrics, and brilliantly contrasting silk floss, heavy wool or chenille is used to embroider the garment.

One of these smocks will be found excellent for sport wear during the late summer or early fall days. The young college or high-school girl will find such a garment matched with a plain wool fabric skirt very useful.

Belts Cover Seams.

Advising a number of retailers of conditions in the men's clothing line, the point is made by a buyer of such merchandise that on all waist-seam models bought it has been thought safer to provide belts. The additional cost is 50 cents, but the assurance that the belt may lead to the sale of the coat, when the plain waist-seam style might become passe, is considered worth the extra money. This concern finds that at present waist-seam models in single and double-breasted effects appear to be popular in all but the larger cities, where the style must include a belt all around in order to place.

FIDDLERS CONTEST EVENING FEATURE

Major Hackett, won hearty applause by donating his \$10.00 prize to East Central Normal with which to buy a picture of Julia Ward Howe, who wrote the "Battle Hymn of the Republic."

A most interesting after feature of the contest was the rendition of "Turkey in the Straw" by all three fiddlers, which was enthusiastically danced by Captain Jack Hale of Chickasha and Mrs. Walcott of Ardmore.

ARDMORE STREET RAILWAY VALUATIONS ARE REDUCED

By News' Special Service

OKLAHOMA CITY, Aug. 27th.—

When an inspector of the state health department found a large quantity of decomposed oysters in an Ardmore business house he immediately condemned and ordered destroyed all of the goods that were unfit for use. The owner of the oysters asked if he would be permitted to send them outside of the state and indicated that he might dispose of them in Texas.

"I have no jurisdiction over the health matters outside of Oklahoma but I most certainly, in the interest of the fair name of Oklahoma will warn the health officer of Texas if the oysters are shipped from Oklahoma," Commissioner Lewis wrote in reply to the inquiry.

The oysters were in cans and if fit for consumption would have been worth hundreds of dollars. Samples were sent to the state food and drug laboratory and it was found that sixty per cent of the cans had small air holes and that eighty per cent of the contents were decomposed.

PERSHING'S MEXICO AUTO NOW AT KELLY FIELD

By the Associated Press

SAN ANTONIO, Tex., Aug. 27.—

Back from varied experiences in Mexico and after six month's "rest" at the bottom of the Rio Grande, the automobile used by General John J. Pershing while the American punitive expedition was in Mexico in 1915 has turned up at Kelly Field, still able to amble along on its own power.

Captain Jack Doublin, officer in charge of transportation at Kelly Field declares the automobile is in good shape mechanically, and if General Pershing accepts a recent invitation to visit San Antonio this fall, it is hoped to place the veteran machine once more at his disposal.

When the American forces withdrew from Mexico after the Villa chase, the automobile was assigned to the First Aero Squadron, to be brought to Kelly Field, but when the Rio Grande was reached, it balked and was abandoned in four feet of mud and water. It was pulled out by a cavalry troop six months later, and now finally has reached Kelly Field.

COMMAND COMMISSION FOR INVESTIGATION

OKLAHOMA CITY, Aug. 28.—

Dozens of letters are being received at the office of the state corporation commission commanding the action taken in the filing of a blanket complaint against the Southwestern Bell Telephone Company alleging inadequate and inefficient service. Some of the language written is more than expressive. One man, a resident of Norman, after setting out many complaints against the service said, in substance: "They used to ask me how I would punish the kaiser. I have made up my mind that none of us had the right conception of real punishment. If it were up to me, I would put him down at a desk in Oklahoma and tell him to put in about twelve calls a day over these lines. If he still retained his reason at the end of thirty days I think it would be well to let him go without further penalty."

Complaints continue to pile up. Many of these are specific and may be used at the general hearing contemplated for early in September. Others of these are of a less specific nature but are calculated to indicate the public's impression of its lack of service.

School Days

will soon be
here---

Next month the little ones will be starting off to school again to continue their education, and parents should remember that success or failure depends largely upon the condition of the eyes. All children should have their eyes examined before entering school and now is the time to attend to it. Great injustice is done to many children by accusing them of obstinacy, inattention and stupidity, when, as a matter of fact, they are only victims of physical defects of sight. Such children, with the proper adjustment of glasses, often become the brightest of scholars.

COON

AMERICAN THEATER
Thursday and Friday, August 28 and 29

FOR SALE

200 Acres—Two sets of improvements; 100 acres in cultivation; some bottom land; 4½ miles from Ada. Price \$65 per acre.

Fashion's Limelight Reveals Much Neckwear

**FEELING BLUE?
LIVER LAZY?
TAKE A CALOTAB**

Wonderful How Young and Energetic You Feel After Taking This Nauseless Calomel Tablet.

If you have not tried Calotab you have a delightful surprise awaiting you. The wonderful liver-cleansing and system-purifying properties of calomel may now be enjoyed without the slightest unpleasantness. A Calotab at bedtime with a swallow of water—that's all. No taste, no salts, nor the slightest unpleasant effects. You wake up in the morning feeling so good that you want to laugh about it. Your liver is clean, your system is purified, your appetite hearty. Eat what you wish—no danger. The next time you feel lazy, mean, nervous, blue or discouraged, give your liver a thorough cleansing with a Calotab. They are so perfect that your druggist is authorized to refund the price as a guarantee that you will be delighted.

Calotabs are sold only in original, sealed packages. Price thirty-five cents. At all drugstores.—Adv.

MAJOR GENERAL CABELL

A Bodice of Ribbon.

The bodice made entirely of ribbon is a feature of midsummer dance frocks—combined with skirts of either net, both silk and cotton; organdie, voile, lace and georgette.

Maj. Gen. De Pease C. Cabell, who has charge of the American troops on the Mexican border, has been awarded the Distinguished Service Medal for "handling the delicate border situation with firmness and sound judgment" during the war.

Ladies' fine shoes; correct shoe fittings a specialty.—Burk's Style Shop.

8-27-2nd-1tw

Women seem to have become much addicted to wearing neckpieces of many kinds. A little journey through shops and departments that carry neckwear reveals such a world of it and such a variety of it that there must be great demand for all kinds of neckwear. Many of the pieces are intended to replace summer furs. These include scarfs made of plumes, ostrich boas, ostrich capes and capes of marabout feathers or marabout finished with ostrich fringe. This ostrich fringe, which appears like marabout is black, white and natural color, is used in borders and bands in scarfs of gold and silver tissue.

Some of the new plumes used for scarfs do not attempt a close imitation of fur but suggest the most popular summer furs, as ermine and broad tail and moleskin. Besides these there are some handsome satin scarfs and capes trimmed with narrow bands of real fur, shown with hats to match like the smart affair that is shown at the right of the two figures above. Rich silk tassels and silk embroidered motifs put this in a class with the handsomest furs.

Both ostrich and marabout make beautiful capes in the style of that shown at the right of the picture.

New fall suits in great variety of styles and fabrics.—Burk's Style Shop.

Ladies' fine shoes; correct shoe fittings a specialty.—Burk's Style Shop.

**Half Million Dollars
Added to Tax Rolls as
Result of Board Meet**

By News' Special Service
OKLAHOMA CITY, Aug. 27th.—At the conclusion of the meeting of the state board of equalization yesterday afternoon it was estimated that the assessments of the various counties of the state as accepted after a hearing was granted to each county, nearly half a billion dollars had been added to the assessed valuation of the state. Last year the total assessed valuation was, in round numbers, one and one-half billions.

What the levy will be is the next question that is of prime interest to the taxpayers. State Auditor Carter is of the opinion that it will be necessary to advance the levy to the statutory limit, three and one-half mills in order to raise a sufficient amount of money to meet the state's expense. Other members of the board do not agree with Auditor Carter, however, and several are of the opinion that with the increase in the assessed valuation the levy can remain as it was last year, two and one-half mills.

Through yesterday, as on previous day, there was an element of "give and take" in the action of the board. In almost every instance the county commissioners and assessors present to offer protest to the various increases asked by the state board, recognized that the assessment in certain classifications was too late, but rigidly objected to increases on other classifications. In this the state board exercised its prerogative and equalized and as a result the assessed valuation over the state has been increased about thirty-three and one-third per cent but still the claims of those counties which had specific classifications of properties in at what was believed to be a reasonable figure were recognized.

At the two day session of the state board there were from time to time, from 100 to 150 men present to represent their respective counties. The sessions were held in the hall of the house of representatives and so the roll of counties was called its representations were presented by a member of the board of county commissioners of the county assessor and immediate action was taken upon each county in the rotation in which the names of the counties were given.

In the absence of Governor Robertson Acting Governor Trapp presided at the deliberations of the board.

A Message About ADVERTISING

FROM THE

U. S. DEPARTMENT OF LABOR

If you are not advertising, then advertise, because it saves money for you and it reduces the price to the consumer.

Advertising prevents profiteering. It insures honest profits and makes them permanent.

The message of the U. S. Department of Labor to merchants and manufacturers and to all progressive American business men is to advertise.

Tell the public about YOUR goods. The consumer has plenty of money. He is willing to spend it and we want him to spend it on American-made products. The easiest, quickest, and most economical way in which this can be accomplished is by advertising.

Start your campaign right now.

U. S. DEPARTMENT OF LABOR

WE MUST BE BORN AGAIN

It is much more pleasant to expect the best, but it is oftentimes wise to recognize the danger of the worst. The signs of the time are filled today with ugly portents, and if this nation survives another century, it must be born again.

The republic was firmly based on the equality of men. The very bell that sounded its baptismal note rang the birth-cry of equal rights to all. In the organic act of the nation was written an anathema against special privilege. So long as the cardinal doctrine of our political life was observed by our government the nation contained within its being the insurance of immortality. But when the government accepts the blight of special privilege and makes it the paramount policy of our national life, we have already drained the hemlock and are well advanced to eternal ruin.

Name the ills that curse our people, and most of those ills spring from the violation of our national tenets. Special privilege lies at the bottom of those nightmares that are wracking the nerves of state. The Plumbe plan is special privilege demanding oppression for the majority that the minority may be favored. A protective tariff lashes the back of the majority with the scorpion whip of privilege that a small but insolent majority may build palaces on Millionaires' Row. Standard Oil has long since been recognized as the invisible government, and special privilege is its shield and buckler. The packers are today ruling majorities with a rod of iron and ruling by the might of special privilege.

Special privilege is no more undemocratic than special burdens. When a small class is singled out for purposes of taxation the law of the land is violated. The burdens of government should be equally borne by all. Many malefactors of great wealth have been forced into ways that are dark and tricks that are vain by the machinations of politicians seeking to curry favor with an uninformed majority. And when minorities are burdened with exactions from which majorities are exempt the fundamental principle of our faith has been violated.

Special legislation, whether it be a special privilege or a special burden, is a desecration of our American ideal. If we fail to observe equal rights with jealous care, our nation has no excuse for being. And when it loses the only excuse it has for its existence it will not long exist. If this nation hopes to maintain its being on this bank and shoal of time, it must return to its ancient policy. It must be born again.

Would it not be a glorious thing if the millions of Americans who continually ask the government to do something for them, would only begin to ask what they can do for the government! We are always looking to Washington to correct some evil or bring about some reform, when the evil is of our own making and the reform is undesirable. Let us learn to think of what each of us may do to improve our government, let us think of it as OUR government, and let us study out something to put into our government that will make it better and more beneficial to all of us.

Possibly 10 per cent of this high cost problem is the product of profiteering. The other 90 per cent is due to other causes, the principal one of which is that for five years the world has devoted itself to the destruction of things necessary to the well being of the world. The 10 per cent evil may be corrected by affirmative legislation and strict law enforcement. The other 90 per cent can only be corrected by saving more than we ever did and producing more than we ever did. Ten per cent talk and 90 per cent labor will make this desert blossom again.

Visitors formerly went to Hot Springs to lose the liquor habit. Now they will go to see the city where so many people lost the liquor habit.

These reports of the great number of illicit distilleries in the mountains are calculated to revive the popularity of Verdi's solo: "Home to our mountains."

It is not correct to say that the price of everything is going up. For instance, there is stock in a Keely Institute.

Yes, Geraldine, it is the "grounds" for divorce that cause all the dirt in the plaintiff's petition.

WAREHOUSE ACT AID TO INDUSTRY

CHANGES IN REQUIREMENTS FOR FEDERAL LICENSE HELP GROWERS, BANKERS AND TRADE.

WASHINGTON, Aug. 28.—To put the business of cotton warehousing on a stable basis and provide receipts for cotton that are negotiable at any bank, has long been the aim of persons interested in cotton, and under the amended United States Cotton Warehouse Act this is likely to be realized. That is the opinion of men in the Bureau of Markets, United States Department of Agriculture, who are charged with issuing Federal warehouse licenses.

The warehouse act has just been amended so as to permit the acceptance of personal bonds from warehousemen and to permit the issuance of negotiable receipts, when requested by the depositors of cotton in the warehouse, without stating the grade of the cotton. The grade must be stated, however, unless the request to omit it is made.

The purpose of the warehouse act is to create a warehouse receipt of unquestioned value, and one which will be acceptable to all bankers as security for obtaining loans, regardless of the location of the warehouse. In this way warehousemen will furnish a receipt to their customers which will be of the utmost value to them as negotiable paper, and enable them to borrow close to the actual value of their stored goods at cheaper interest rates. Thus they market their cotton slowly and in conformity with the needs of the manufacturer. The full description of the cotton stored requested to be stated on the face of the receipt will enable the owner to know the value of his cotton and enable him to market it intelligently. The proper development of the warehouse will make possible the practice of marketing the cotton crop through the warehouse, and thus avoid the enormous losses resulting from weather damage.

Warehousemen desiring to take advantage of the opportunity extended should apply to the Bureau of Markets at Washington, D. C., for the application forms. Upon receipt of the blanks they should be filled out and sent to the Bureau of Markets at Washington along with the nominal inspection fee required. This fee is based on the capacity of the warehouse at the rate of \$1 for each 1,000 bales of its capacity; thus a 5,000 bale warehouse will pay an inspection fee of \$5; a 6,000 bale warehouse, \$6, etc. If the warehouse has a capacity of less than 5,000 bales, the fee will be \$5. The maximum inspection fee is \$50. Thus a warehouse having a capacity of more than 50,000 bales will be required to remit a fee of only \$50. This inspection fee, a license fee of \$2 and the cost of his bond is the total expense of the warehouseman. If for any reason the license is not issued or the inspection is not made, any unassessed fees will be returned to the applicant.

Under recent orders, shippers were required to load foreign cars with shipments taking the cars toward their home roads, and later another order went into effect that all cars with capacity of more than forty tons should be sent to coal mines. These orders, highway officials assert, have had the effect of curtailing seriously the material available for road building, just at a time when the state was particularly interested in the extension of highway improvement.

STRONG SUPPORT IS PROMISED S. A. DRIVE

OKLAHOMA CITY, Ok., Aug. 28.—Vigorous support for the Salvation Army Home Service campaign for \$1,000,000 in the Southwestern states of Texas, Oklahoma, Louisiana and Arkansas is promised according to Governor Robertson of chairman of the state campaign committee who received a telegram yesterday from Frank Rain, grand exalted ruler.

"I earnestly co-operate with you and the good people of my home section of the United States," Mr. Rain said in his telegram. "We are behind you in your home service campaign."

Commander Evangeline Booth told us in our recent convention at Atlantic City that if it had not been for the Elks the Salvation Army could not have achieved the success it did in the great war.

"Great good is being done by the Salvation Army along a line that cannot be accomplished by any other organization. We as an order have always aided the Salvation Army and the Elks from coast to coast are assisting them in their present drive. Here's hoping that you go over in Texas, Oklahoma, Louisiana and Arkansas."

ARSENIC FOUND IN THE COFFEE AT LUNCH ROOM

CHICAGO, Aug. 28.—Arsenic was found in samples of coffee taken from a downtown lunch room where thirty persons were poisoned yesterday. Health Commissioner Robertson is of the opinion that someone put poison in the coffee with malicious intent, and the police are making every effort to run down the guilty parties. It is thought that all those taken ill after eating in the restaurant yesterday will recover.

Bring your clean cotton rags to the Ada News office. We will pay you 3c a pound.

KING GEORGE RECEIVES AMERICAN CRIPPLES

By the Associated Press
NEW YORK, Aug. 27.—King George of England received two of America's most famous cripples—Michael J. Dowling, of Olivia, Minn., and Quentin D. Corley, of Dallas, Tex.—on July 25 last at a royal garden party according to a letter from Mrs. Ethel Wood, former secretary of the British Ministry of Pensions, to the Red Cross Institute for Crippled and Disabled men, made public here today.

Dowling lost both legs, his left arm and several fingers of his right hand as the result of exposure to the cold in a blizzard when he was fourteen years old. Corley lost both of his arms in a railroad accident. The British Red Cross Society through the American Red Cross Institute, invited them to visit England to cheer and give courage to the thousands of disabled British soldiers in the reconstruction centers in that country.

Twenty-four thousand disabled soldiers, gathered in Central Hall, Westminster, where encouraged by the stories Dowling and Corley told of their struggles to overcome their handicaps. Prince Albert also addressed the audience. The meeting was presided over by Sir Lamont Worthington-Evans, British Minister of Pensions.

Dowling and Corley plan to leave England soon for France. They will be accompanied by Mrs. Wood.

ARKANSAS PROTESTS GOVT. CAR REGULATION

By the Associated Press
LITTLE ROCK, Ark., Aug. 27.—County judges, road commissioners, road engineers and road contractors will meet here tomorrow at the call of William B. Owen, state highway commissioner, and the Arkansas Roads Association, through its secretary, R. O. Schaefer, to consider a protest to the railroad administration in regard to the recent regulations governing the use of cars for hauling sand, rock, and other road building material.

The theory that they are the writing of European travelers of many hundreds of years ago is held by Olaf Opsjorn, a student of archaeology who resides at Dishman, near this city. The same symbols also discovered by Mr. Opsjorn, he says, on a big stone on the seashore north of Boston, Mass.

The "painted rocks," are on the west side of the Columbia river, two miles north of Vantage Ferry. Among the "pictures" are those of two goats described by Mr. Opsjorn as part of an astronomical symbol. He believes they were intended to indicate the equinoxes.

COMMISSION WILL HEAR ICE COMPLAINTS

County Attorney Wadlington received a letter today from the state corporation commission stating that his complaint against the local ice company had been received and that the commission will hold an open hearing on the matter in the district court room at Ada, September 5, beginning at 10 o'clock A. M.

Mr. Wadlington requests all parties having information or complaints concerning the ice company to give him their names at once.

Dr. M. M. Webster went to Oklahoma City this afternoon on professional business.

Soldiers of the South Welcome!

We most cordially invite you to visit our greenhouse and enjoy our beautiful flower gardens.

You will greatly honor us if you accept this invitation.

MAJOR SCOTT

Major Scott is commander of the British dirigible R-34, first of its kind to make a transatlantic flight.

ARE THEY INDIAN OR THE EARLY TEUTONIC?

By the Associated Press

SPOKANE, Wash., Aug. 27.—Whether painted symbols on the rocky banks of the Columbia river, in Klickitat county, Washington, are Indian symbols or whether they are the records of early Teutonic explorers is to be submitted to experts of the bureau of Indian affairs at Washington, D. C., for their verdict.

That the pictures are fragments of early history of the tribesmen of the Pacific northwest is the belief of W. S. Lewis of this city, secretary of the Eastern Washington Historical society. He believes they are 250 years old.

The theory that they are the writing of European travelers of many hundreds of years ago is held by Olaf Opsjorn, a student of archaeology who resides at Dishman, near this city. The same symbols also discovered by Mr. Opsjorn, he says, on a big stone on the seashore north of Boston, Mass.

The "painted rocks," are on the west side of the Columbia river, two miles north of Vantage Ferry. Among the "pictures" are those of two goats described by Mr. Opsjorn as part of an astronomical symbol. He believes they were intended to indicate the equinoxes.

WOMAN KILLED AND TWO MEN HURT IN AUTO CRASH

By the Associated Press

TULSA, Okla., Aug. 28.—One woman is dead and two men are injured as result of an automobile accident on Wednesday night ten miles from here on the Tulsa-Bixby road. Mrs. Lena Barnstetter died at a local hospital shortly after the accident. J. W. Mitchener, owner of the car, suffered three broken ribs, and Elmer Barnett, the driver, injured internally but may recover.

Rev. Davis Home.

Rev. Franklin Davis, rector of St. Paul's Episcopal church, of this city, will return from his vacation next week and church services will be held on Sunday morning, September 7, 1919. Rev. Davis has spent a portion of the summer at his old home in Virginia where his childhood and young manhood days were spent.

Knott's Bread is retailed by the leading grocers. Ask for it. 8-28-27

OKLAHOMANS HELD UP IN CALIFORNIA

By News' Special Service
Two or three hundred Oklahoma City tourists in California probably were wondering Wednesday how to come home.

Between 300 and 500 tickets to California have been sold by railroad administration offices recently, officials said Tuesday, and it was estimated half the purchasers were still in California. Closing of all southern routes to and from California by strike of railway workers is believed to have marooned most of them.

No tickets on southern routes west were being sold by the office Tuesday beyond Tucson, Ariz., though it was said here some northern lines into San Francisco were still open.

Marriage Licenses.

Only one marriage license has been issued by the court clerk today. This was to J. O. Ross, 24, of Ada, and Linda Turner, 20, of Ada.

RESIGN FOR A REST

By the Associated Press

SEATTLE, Wash., Aug. 28.—
Mayor Ole Hanson said shortly be-
fore noon today that he would resign
his office as mayor at 1:30 P. M.,
when the council meets.If I resign it will be because I
need a complete rest," the mayor
said. "According to previous plans
my resignation will be presented and
accepted today."Friends of the mayor say that he
will go on the lecture platform after
taking a complete rest.

THE TOWN GOSSIP

By MILTON LESTER

USUALLY THEY come in.
AND TELL me.
THAT THEY want.
TO PAY their subscription.
BUT OCCASIONALLY.
THERE ARE variations.
AND LAST week.
A MAN came in.
AND SAID.
THAT HE wanted.
TO PAY his superscription.
AND THE other day.
ANOTHER ONE.
WANTED to know.
IF HE was behind.
IN HIS inscription.
AND THIS morning.
I ALMOST fell.
OUT OF my chair.
WHEN A real tall guy.
CAME IN.
AND ASKED me.
TO FIND out.
ABOUT HIS abstraction.
TO THE paper.

AND YESTERDAY.
THERE WAS another fellow.
WHO WANTED information.
ABOUT HIS prescription.
AND AT other times.
THE SAME word.
HAS BEEN twisted around.
IN VARIOUS shapes.
BUT JUST the same.
WHEN A man comes in.
AND REACHES down.
INTO HIS pocket.
AND BRINGS forth.
A ROLL of bills.
I CAN understand.
WHAT HE wants.
NO MATTER.
IF HE talked.
IN TURKISH.
OR IF he were deaf.
AND USED sign language.
AND SOMEHOW or other.
A ROLL of bills never had.
ANY GRAMMATICAL errors.
THAT I could discover.
I THANK you.

FORT SILL SOLDIERS
COMING SATURDAYBOLSHEVIK ADMIT
LOSS OF ODESSA

By News' Special Service

LONDON, Aug. 27.—Occupation of Odessa, chief Russian port on the Black Sea, by allied forces is admitted in a Bolshevik Government; wireless message from Moscow, received here today. The occupation was effected, the dispatch states, after thirty vessels had bombarded the city for two days.

The men of the Fort Sill team are officers and men of the Heavy Artillery and they have the reputation of being as heavy in ball playing as they are in handling the big guns of the government. At the head of the soldiers will be Lieut. Nichols, who is in charge of the athletic work at Fort Sill. These games are expected to be the most interesting and hardest fought of the season. Large crowds are expected for each game as the holiday season for Ada is on at present and will continue until Monday when the Labor Day celebration will take place.

The Ada ball team this year has been a complete success in every detail. Up to the present date they have played fifteen games and won 12 of them. There is probably not another amateur team in Oklahoma with such a successful record.

That "all in" feeling so common in hot weather is not due to heat alone, but to an unhealthy condition in the liver, stomach and bowels. To prevent a spell of sickness take Prickly Ash Bitters, it is an excellent system cleanser and regulator. Price \$1.25 per bottle.—Gwin & Mays Drug Co., Special Agents. (adv)

BAY BUM COMES UNDER
THE PROHIBITION AXE

INDIANAPOLIS, Ind., Aug. 27.—Bay rum, whether it be sold for toilet lotion or a beverage, is contraband under the Indians prohibition law, according to a decision by acting Judge J. D. Robbins, in city court. A local druggist was arrested charged with selling 50 cents worth of bay rum to a negro, who drank it and became intoxicated. The druggist admitted the sale and based his defense on the plea that he sold it as a toilet lotion and not as a beverage.

"Under the existing Indiana law, if I sold whiskey, I would violate the law regardless of the purpose for which the whiskey was intended," Judge Robbins declared. "If this man sold bay rum he is guilty under the statutes."

Good appetite, vigor and cheerful spirits follow the use of Prickly Ash Bitters. It purifies the stomach, liver and bowels and makes life worth living. Price \$1.25 per bottle.—Gwin & Mays Drug Co., Special Agents. (adv)

Notice Soldiers, Sailors and Marines

You are especially requested to be at the Normal Auditorium in Ada, on Saturday, September 13, 1919, at 1 a. m., for the purpose of organizing the American Legion of Soldiers, Sailors and Marines of Pontotoc County. This organization will be for the material benefit of every soldier, sailor and marine and all should make it a point to be present. Don't forget the date and don't fail to be there for the future will have something for us.—Chas L. Orr, Temporary Chairman.

If Noah had advertised for help in the News he wouldn't have had to build the ark alone.

ALLEN TEAM GIVEN
ANOTHER BLOWLOCAL TEAM STRONGER THAN
EVER AND WIN FROM VISITORS IN PRESENCE OF
LARGE CROWD.

Ada added another scalp to their belt yesterday when they swamped the Allen players on the local grounds. This was the third game Ada has played with Allen this year and the second game they have won. It is said by the rooters who accompanied the visitors to our city yesterday felt like changing the name of their town last night from Allen to All-in.

The game yesterday was not marked by any exceptionally sensational plays. Absolute harmony and team work was observed throughout on the part of Ada and they were just simply too heavy for the small timber from the oil fields. In an effort to stop the onrush of hits and runs the visitors placed Jesse in the pitcher's box at the beginning of the sixth, but the locals "found" him with the same ease and grace they used on Williams.

One thing that created enthusiasm among the Adams was the work of our new pitcher, Brazil. He showed up in fine shape and got every encouragement asked for from his team mates and the rooters. Brazil comes to Ada from Pawhuska. He is just a youngster 19 years of age, and is in baseball to earn money with which to continue his education.

For Allen: Bases stolen, Jesse and Williams; Double plays, Medier to Johnson, Medier to Strain; Struck out by Williams 4; by Jesse 1; Hits off Williams 9 in five innings; off Jesse 7 in 4 innings; Two base hits, Johnson; Triple plays, none; Passed balls, Strain 2; Three base hits, none; Bases on balls off Jesse 1; Wild pitches, none; Home runs none; Hit by pitched balls, none.

EATING TEXAS BULL
PUT THE PEP IN MINES

By the Associated Press

CINCINNATI, O., Aug. 28.—Training on railroad track and eating Texas bull delivered the goods. Congratulations. Will send representatives to the world series."

This telegram, received by Manager Moran of the Cincinnati Nationals from the Chamber of Commerce of Waxahachie, Texas, gave the Reds a laugh during the last of the doubleheaders with New York, and recalled their training trip experience in the Texas city this spring. The Reds practiced on the railroad track and even in the graveyard of Waxahachie when the regular ball field in the town was too wet to play on.

Following the New York series, Red fans residing outside of Cincinnati, sanguine that Moran's team will win the National league pennant, began besieging many Cincinnati merchants with letters to purchase tickets for them for the World championship games at Redland field."

"The dauntless, dashing Reds can't lose," ran one of the letters. "They are impregnable. Why, even Foch's army could not mow them down. They are on the road to victory, and nothing could stop them."

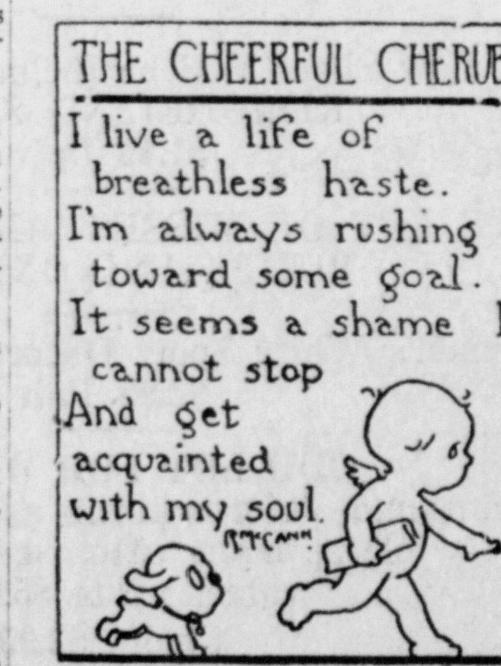

The Cincinnati management also was flooded with requests from local fans. To all of these, however, August Herrman, president of the Cincinnati club, answered he would not take names for tickets until the pennant had been cinched.

Let a Want Ad get it for you.

Standardizing the Schools of
Pontotoc County 1919-1920

To the Teachers and Patrons of Pontotoc County:

For the betterment of our schools, I submit the following sheet or score blanks which contain requirements to meet in order that your school may rank with the best. This will furnish the teacher and patrons something definite toward which to work.

As the leader of the rural school affairs of this county, I earnestly ask your co-operation in this great work for the betterment of our schools and I believe I can depend upon you in this.

Many other requirements may be added, but these are the most essential ones, and should be met by every school. At first thought you may think it a very poor school that does not meet most of them, yet, when you take a survey of your school you will be surprised to find what is lacking.

The time is near at hand when we must have better rural education and to meet this demand we must have better buildings, better equipment, more efficient teachers and a manifestation of more community interest. The education of our boys and girls must be made more practical, that they may be better prepared for the different fields of vocation, and be able to do definitely some occupation by which they can make a living.

There are twenty requirements divided into four divisions or groups of five requirements each, except the fourth which has ten requirements, but their total value will be counted the same as the others. Each requirement will be worth five points. Some of these points will be of more value than others, but I make them of equal value to simplify the grading. If only a part of a requirement is met or any extra provision not mentioned, credit will be given accordingly.

The schools will be divided into A, B, C, and D classes. Those making 80 per cent or above will be classed in A, or Model School. Those making 65 to 80 per cent will be classed in B. Those making 50 to 65 per cent will be classed in C. Those making 40 to 50 per cent will be classed in D. Those below 40 per cent not in any class.

This grading is to be done by the teacher and school board. You are required to grade your school then sign by the teacher and clerk of board about the middle of the winter term. When I visit your school I will grade it and if no other grading is done it will stand as I grade it at the time of my visit.

Each school will be given a certificate showing its standard. Those that are classified as "A" or "Model School" will be given a pennant, and those pennants to be retained by the school as long as the school remains in said class.

REQUIREMENTS.

Division I. Exterior.

1—Play Ground.—Plenty of ground for games of all kinds needed for children and it well graded and kept free from paper and rubbish of all kinds. The house well painted and kept in good repair with window guards, doors that will lock, and steps.

2—Apparatus.—Play ground apparatus such as teeter boards, basket ball, baseball, swings, etc. These well made, planned and kept in shape.

3—Water.—Good well or cistern, conveniently situated, and kept in a sanitary condition.

4—Fountains or Drinking Cups.—A good fountain, or cooler with individual drinking cups.

5—Toilets.—Clean and sanitary arranged so flies cannot enter. Properly constructed blinds.

Division II. Interior.

1—Floor Space.—Plenty of floor space, seats, teacher's desk and chair, properly arranged.

2—Black Board, etc.—Sufficient black board space, erasers, crayon to be used by class without confusion.

3—Heating.—Stove in good repair with jacket arranged to keep all pupils comfortable in the coldest of weather.

4—Closet Room.—A place for dinner pails, hooks for hanging up their wraps and windows clean with adjustable shades and washable sash curtains.

5—Care of Room.—Walls clean and floor kept oiled and swept at close of each day.

Division III. Equipment.

1—Maps and Globes.—A set of good maps in roller case and a globe should be in every school building.

2—Library and Dictionary.—A few good readable books for all grades and a set of reference books. There should be suitable bookcase for these books. Webster's Unabridged dictionary in a good stand or on table convenient to all.

3—Pictures and Flag.—At least three good pictures in frames. Also a good flag of the U. S. placed inside of school building.

4—Piano and Charts.—Piano, good organ, graphophone or some appropriate instrument with some good song books. Also some good up-to-date chart on Reading, Physiology or Agriculture.

5—Pencil Sharpener and Wash Basin.—Good pencil sharpener in each room fastened to wall or desk, and wash basin and towel provided in a sanitary manner for use of pupils.

Division IV. Teacher and Students.

1. TEACHER.—
a—Qualification.
b—Personal appearance.
c—Promptness and regularity of attendance on duty.
d—Enthusiasm and interest in the school work and the Teacher's Association.

e—Interest in the community work.

2. STUDENT BODY.—
a—Percentage of attendance.
b—Absence, tardiness, and truancy.
c—Studioiness.
d—General deportment and neatness.
e—School spirit manifested by pupils and community.

I will make mention of some special requirements, for which credit will be given, but since it requires considerable expense—more than some districts are able to bear—I did not consider best to make compulsory. They are as follows:

1. A good substantially built storm cage.
2. A neat substantial fence and walks to gate and to toilets.

3. Sanitary toilets connected with sewerage or cess pool.

4. Drinking fountains, single desk and modern stove with jacket.

5. A teacherage or some place of abode be provided for the teachers.

LOCAL BOYS ARE
SUCCESSFUL IN WEST

Reports come to Ada of the success in the west of three young men from this city. The men are John and Jim Keltner and Albert McCoy.

For some years the Keltner boys have been working with their father J. L. Keltner in the wholesale grocery business in Ada. Albert McCoy has been holding an important place with the cement company at Lawrence.

Recently the T. D. Turner company of Oklahoma City decided to establish a branch of their business in the oil fields of the west at Devil's Hole, Oklahoma. The Turner company are wholesale grocery and produce men with stores in many places. In looking for men to handle the new store the company discovered these young men at Ada and offered John Keltner and Albert McCoy the positions.

The time is near at hand when we must have better rural education and to meet this demand we must have better buildings, better equipment, more efficient teachers and a manifestation of more community interest. The education of our boys and girls must be made more practical, that they may be better prepared for the different fields of vocation and be able to do definitely some occupation by which they can make a living.

The many friends of these popular young citizens of Ada are glad to learn of the success they are having in the west.

Albert McCoy is the son of Mrs. Mary McCoy of Ada.

Germs are plentiful in the summer air, we breathe them every minute. In health they do no harm, but to those who have a bad liver, disordered stomach or constipated bowels they mean a spell of sickness.

The best way to insure your health is to take Prickly Ash Bitters. It purifies and strengthens the system. Price \$1.25 per bottle.

NAVY SPECIAL TRAIN IN KANSAS CITY TODAY

By the Associated Press

KANSAS CITY, Mo., Aug. 28.—A navy special train carrying the Great Lakes Naval Training Station band, a detachment of naval aviation men, a "jazz" orchestra, singers and special exhibits arrived in Kansas City this morning on a recruiting mission. Lt. Commander Herbert G. Gates, U. S. N., was in command of the train.

This afternoon naval aviators were to give demonstrations with a small airplane which, it was asserted, is the type that will be used in the future by persons going to and from their offices and places of business. This machine will land on the roof of an ordinary skyscraper and will carry one person and baggage at a speed of 60 miles an hour, according to the naval aviation men. It weighs

350 pounds without a full tank of fuel and has a wingspread of seventeen feet. It is equipped with twin-cylinder 23 horse power motors. It was announced that the airplane would be piloted by Chief Quarter-master J. D. Carroll, under whose supervision it was constructed by enlisted men in the naval aviation schools at the naval training station, Great Lakes, Ill.

With the special train, is the sailors' daily traveling newspaper, the Navy Recruiter, which is published by the staff of the Great Lakes Bulletin. Details of the stay of the train in Kansas City will be published in the newspaper, is was announced, and copies will be distributed free in the business district.

Two new bakers have been employed at Knott's Bakery to help take care of the increased trade.

Quality is building volume at this man's bakery.

Senator L. A. Morton and wife of Duncan have been interested visitors at the reunion. While in Ada they have been guests at the home of Luther Harrison. Senator Morton and Mr. Harrison were schoolmates twenty years ago and desk mates in the Oklahoma senate last winter. Senator Morton will attend the reunion at Atlanta.

Mrs. Tom Hunter of Hugo is numbered among the Daughters attending the reunion. Mrs. Hunter is a very active member of that organization and never misses one of its meetings. While her husband was a member of the legislature five years ago she organized the "Ohoahoma Club," an organization consisting of the wives of the legislators. The word "Ohoahoma" in the Choctaw language means "council of women."

Senator T. S. Hogg of Shawnee is another old veteran who rarely misses a reunion. He is one of the youngest veterans of the "Lost Cause," and will always remain young. It is a rare pleasure to meet Senator Hogg.

The oldest man to attend the reunion in Ada is one of the old vets from Ardmore where is located the Confederate Soldiers' Home. The reporter could not learn his name, but he is 89 years old and spry as a young chicken. Captain Barrett of Vinita is 84 years old.

There is not a single veteran of the Confederate army but who has an interesting story to tell. It is great just to stand on a street corner and listen to them as they relate their experiences of the days gone by. Captain A. M. Crow of Ada says he was but 14 years of age when he enlisted in the service. The home of Mr. Crow was at Dalton, Ga., but when the war broke out he was attending school at Marietta, Ga. A company was organized at Marietta and he ran away and joined. Mr. Crow was promoted to a first lieutenant at the battle of Fredericksburg and was shot five times during the war.

J. A. Morgan of Ada has an interesting collection of relics of the Civil War. Among them is an immense cheese knife made of iron. He also has a minnie ball he saved from some battle in Arkansas and he has a large shoe thimble made in 1790 which was used by his grandfather many years ago when each man sewed and made his own shoes. In addition to these Mr. Morgan has a sash worn by one of his uncles in the Texas revolution of 1836. His uncle was one of the 14 survivors of 400 under Fannin who were compelled to surrender. The sash is well preserved and of course he values the relic very highly. He is sending all his war relics to be placed on exhibition in the Confederate room at the state capitol at Oklahoma City.

Captain Sam H. Hargis of Ada was signally honored by the Confederate Veterans in their resolutions adopted yesterday. A resolution was adopted setting forth that Captain Hargis, while a member of the Fifth Oklahoma Legislature, had introduced the Confederate Pension bill which was passed by that body, therefore, it was resolved that a painted portrait of Captain Hargis be made and placed in the Confederate Memorial Hall in the statehouse in Oklahoma City.

The Faust hospital did their part in making the reunion at Ada the great success it was. They announced that they would treat without charge any veteran who needed attention while in our midst. As a result of their offer they were called upon to lance three boils, dress one injured leg, dress one knee, remove a splinter from a finger and one old soldier who was seriously suffering from old fashioned stomach ache spent last night as a guest of the hospital.

Mr. and Mrs. Marvin Brown of the Evening News were honored by the soldiers at the Normal today at noon. They were invited to take dinner in the soldiers' mess hall, where a sumptuous feast had been prepared for them. Walter Goyne, who has so ably conducted the feeding of the soldiers during the reunion, was in charge of the dinner. At the close of the dinner the Old Fiddlers played and the negroes who had been cooking for the soldiers did the buck and wing and other old time steps.

The \$10 received as a prize in the fiddlers' contest by Major Hackett, the special guest from the Grand Army of the Republic, was donated by Major Hackett to the East Central State Normal. With the check was the following inscription: "Buy with \$10 picture of Julia Ward Howe, frame it nicely and present it to the East Central Normal." Major Hackett added that if there was any money remaining of the fund after the picture of Mrs. Howe had been secured he wished it to be used toward the purchase of a similar portrait of Sarah Adams, author of "Nearer, My God to Thee." Mrs. Howe is author of "The Battle Hymn of the Republic."

The Sons of Confederate Veterans regret that they did not get to a meeting during the reunion at Ada. Owing to the fact that Mr. Booth, commander of the organization, was killed some time ago, there was no commander present and no meeting was held. Several delegations of the sons were present at the reunion and they ask that their thanks be added to those of the vets for the many kindnesses shown by

citizens of Ada during the convention. Tulsa Camp of the Sons was represented by Tate V. Brady and Alfred C. Hunt, who is their commander. Nathan B. Forrest Camp was also represented by State Senator L. A. Morton of Duncan, adjutant, Mrs. L. A. Morton, Matron of Honor, Miss Will Leeman, Sponsor, and Miss Hazel Sampson, Maid of Honor.

Mrs. Frank Leach of Sedalia, Mo., who has been attending the Reunion returned to Missouri on the Frisco today. Mrs. Leach has three times been highly honored by the confederate veterans. She was recently made assistant adjutant general and is the first woman to enjoy this distinction. Mrs. Leach rode with the mounted officers in the parade in full confederate uniform. She led the grand march on Main street, accompanied by Capt. Chas. Orr, of Ada, who was an officer in the late war. Mrs. Leach is a beautiful young woman and she and Capt. Orr made a very charming couple. She is a Missouri friend of the Marvin Brown family and they lived in neighboring towns in Missouri.

The newspaper fraternity was represented among the marching veterans by Col. Jim Tom Story of the Bokchito News. With the exception of Luther Harrison and Jack Hyde, Col. Story is decidedly the handsomest newspaper man in Oklahoma. All who have seen him admit that he has a nose for news.

VETERANS VOTE ADA BEST ENTERTAINER

In the resolution adopted by the Confederate Veterans before final adjournment was one thanking the people of Ada for their hospitality displayed towards the visitors. The resolution speaks of Ada's generosity in terms of unstinted praise. In speaking of the reunion Col. R. A. Sned said just before leaving for Oklahoma City this afternoon: "The high record of entertainment heretofore made was made by Ada, who had entertained us on two prior occasions. I have said that the only difficulty to be met this year would be the fact that Ada has done so much for us in the past that she could hardly show up well this time. But she has eclipsed her former record. This was by odds the best reunion we have ever had and easily the most royal entertainment we have ever had."

A resolution was adopted asking the governor to appoint a custodian for the Confederate Room in the state capital and asking the legislature to provide a board of trustees for the Confederate room and library, such board to consist of three veterans of one son and one daughter.

Notice Soldiers, Sailors and Marines

You are especially requested to be at the Normal Auditorium in Ada, on Saturday, September 13, 1919, at 1 a. m., for the purpose of organizing the American Legion of Soldiers, Sailors and Marines of Pontotoc County. This organization will be for the material benefit of every soldier, sailor and marine and all should make it a point to be present. Don't forget the date and don't fail to be there for the future will have something for us. —Chas L. Orr, Temporary Chairman.

WEATHER FORECAST

OKLAHOMA: Generally fair is the weather prediction for tonight and Friday.

If Noah had advertised for help in the News he wouldn't have had to build the ark alone.

Let a Want Ad get it for you.
